Dear General Cabell:

I enclose is the recommendation of your letter of March 6, that the IAC should establish an ad hoc committee to develop for the consideration of the IAC a recommended U.S. policy toward Soviet and satellite service attaché personnel. If such a committee is constituted, I believe it should address itself to the problem of authorized compliments of Soviet and satellite attachés in their U.S. missions, and also to the problem of appropriate treatment by U.S. officials of those accredited.

Sincerely yours,

(sgd) W. PARK ARMSTRONG, JR.
